

User Documentation

Table of Contents

Chapter 1: Getting Started

1. Introduction
2. Why do you choose Geometry Application?
3. Download and install
4. Setup and change language
5. Finding and managing creative tools and content
6. Creating New File, Opening File, and Saving

Chapter 2: Basics

1. Draw
 - 1.1. Vertices
 - 1.2. Lines
 - 1.2.1. Press-Drag-Release
 - 1.2.2. Click-Click Two Points (Connect vertices)
 - 1.2.3. Input Starting, Ending Points, and Angle
 - 1.3. Polygons
 - 1.3.1. Extract arbitrary segments as a polygon
2. Tools
 - 2.1. Select and Invert Selection
 - 2.2. Delete
 - 2.3. Rotate
 - 2.4. Zoom
 - 2.5. Color
3. Calculation
 - 3.1. Find midpoint
 - 3.2. Find lines of symmetry
 - 3.3. Center of mass
 - 3.4. Find point of rotational symmetry for polygons
 - 3.5. Find point of rotational symmetry for tiltings
 - 3.6. Calculate distance
 - 3.7. Find points and break lines at intersection

Chapter 3 FAQs:

Frequently Asked Questions
